DESCRIPTION TECH SPECS ACCESSORIES

Zymox is a bio-enzymatic drain maintainer that uses a natural process to safely maintain and unblock drain lines, grease traps, septic systems and sludge ponds. Zymox dissolves grease, food scraps, protein, soap scum, starches and carbohydrates to maintain flow in drain lines.

• Saves money – regular use will reduce clogging and cleaning of grease traps by as much as 60% to 80%, which lowers maintenance costs

• Zymox is a non-acidic, non-caustic formulation

• Has an effective odor counteractant that instantly eliminates unpleasant drain system odors

• For preventative maintenance use 3 to 6 fl. oz. per night

Applications:

- Slow-running drains that are prone to clogging in kitchen areas or where grease and fat are present
- Grease traps
- Septic tanks
- Sludge lagoons and ponds
- Lift stations and wet wells
